

Water

End of Unit Assignment

Bottled Water

PART A

Watch the video: A history of Bottled Water

<https://www.youtube.com/watch?v=Se12y9hSOMo> (A history of Bottled Water youtube video)

What were some points that surprised you the most?

Bottled Water Companies

PART B

Research Nestle Water Company.

Where are they located?

Where do they get their water?

What's the connection between Indigenous People and this company?

Task

Using your knowledge learned from this unit as well as the information from the article, complete the following task.

Using a Venn diagram, list the 3 different perspectives of each group based on water (Nestle, Hydroelectric Dams, Indigenous Knowledge/Perspective). In the middle of the diagram, include the overlap (or explain the connections between each perspective).
